

ROXTON DIY WIPES HAND SANITIZING WIPES:

INGREDIENTS:

- ½ cups distilled water
- 4 tbsp of aloe vera gel or glycerin
- 2 cups of rubbing alcohol (We recommend 99% rubbing alcohol - the higher the concentration, the more effective the sanitizing)
- Optional: 20 drops of your choice of essential oil
- 1 Canister of Roxton DIY Dry Wipes

INSTRUCTIONS:

1. In a separate container, combine ingredients together
2. Pour solution into the Roxton DIY Wipes container
4. Install wipe container lid and allow solution to permeate the substrate
5. Use as needed for quick sanitizing of your hands or surfaces!
